Bracknell

### Product Details

**Product name:** Particulate filters.  
**Models:** 3M 2125 (standard industrial product).  
3M 2128 (standard industrial product).  
3M 2135 (standard industrial product).  
3M 2138 (standard industrial product).  
**Product type:** Particle filters.  
**Technical Specification:** Harmonized European Standard EN 143:2000  
**EN 143 classifications:** 3M 2125: P2 R.  
3M 2128: P2 R.  
3M 2135: P3 R.  
3M 2138: P3 R.  
(Each model is designed for use in a twin filter configuration).

For product manufactured between December 2002 and April 2007 the product assessment was based on BS EN 143:2000, the English language version of EN 143:2000, respiratory protective devices – particle filters.

For product manufactured from May 2007 the product assessment was based on BS EN 143:2000, the English language version of EN 143:2000, respiratory protective devices – particle filters, both documents incorporating Corrigenda 1 and 2 and Amendment 1.

The Filters are designed to protect against solid and non-volatile liquid particles with the 3M 2128 and the 3M 2138 incorporating carbon loaded filter media. The filters are designed for use with the 3M 6000, 3M 7000 and 3M 7500 series of Half Masks and the 3M 6000 and the 3M 7000 series of Full Face Masks. The Masks have been independently CE Certified.

First Issued: 6 Dec 2002

### Packaged variants

In addition to the products referenced on this Certificate the standard industrial products may also be sold as market specific packaged variants. Such variants will be identified by an alpha suffix added to the model reference and the Technical File will be updated with the appropriate information.

### Kits and packouts

The products referenced on this Certificate may also be combined with other 3M products into a kit or packout. There will be no change to the products but the user information may vary. In such instances the Technical File will be updated with the appropriate information.

### Certification Administration Details

Technical File References:

3M 2125	TF 0031
3M 2128	TF0032
3M 2135	TF0033
3M 2138	TF0034

### Certificate Amendment Record and internal BSI report related to this Certificate:

Issue date	Comments	BSI Report No.
6 December 2002	First issue, models 3M 2125 P2, 3M 2128 P2, 3M 2135 P3 and 3M 2138 P3.	0086:02:1146 to 0086:02:1149
11 May 2007	Change of manufacturer's headquarters address and to reference assessment of the product to the requirements of the amended Harmonized Standard.	0086:05:1567 and 0086:07:1983

### Certificate validity

The Certificate holder is responsible for ensuring that the Notified Body is advised of changes to any aspect of the overall processes utilised in the manufacture of the product, failure to do so could invalidate the Certificate in respect of product manufactured following the introduction of such changes.

The validity of the Certificate is also dependent on the maintenance of the EC quality of production by monitoring system, PPE Article 11B, as referenced on BSI Certificate 00346.
